Animal tokens · Front: picture (diameter 2.4 cm)

Print at 100% scale. Cut out the circles and stick them on one side of the tokens.
Stick the QR label of the same animal from the next page on the other side. Sticker paper is easiest.

Animal tokens · Back: QR (diameter 2.4 cm)

When you answer, put the token QR side up in the dashed circle (token spot) at the pointed bottom end of the tile.
If you are right, flip the token over: the animal now lives on that tile.
